This model is one of the products of Highlead extra heavy duty series. It features compound feed mechanism and long arm cylinder bed. Its powerful and steady feeding enables you to sew multiple heavy weight material with nice and beautiful stitches easily. The imported special large shuttle hook and large bobbin capacity offers high efficiency in sewing production. The bobbin winder is on top of the machine head and the pressure foot lift can be up to 20mm. Its application covers the stitching of handles of handbags, baseball, gloves, sports apparatus, safety bags, tents, seat cushions, case & bag, and other heavy duty or extra heavy duty work.

GA2688-1 can be upgraded with servo motor, pneumatic reverse feeding and pneumatic foot lifting functions.
