

The Buzzaird® rotary shear is available with different shaped blades to maximize shearing, chopping or slicing of technical fabrics. The air powered motor provides an alternative solution to facilities where electric power is not sustainable.

- Engineered with a 20,000 RPM pneumatic motor
- Eastman's most powerful rotary shear with the highest torque and greatest RPM
- Optional Pelican head designed for cutting lofted materials.
- Optional swivel sharpener is equipped with a 30 degree ball tip shear plate for close edge trimming.

Features

Wet Environment Suitability

Pneumatic (air-powered) cutting

Eliminates Operator Fatigue

Lightweight cutting, weighing only 3 lbs. (1.36 kg)

Efficiency

On-the-spot sharpening with a built-in sharpener

Safety

Standard equipment includes transparent Lexan® knife guard. Please contact the factory for more information.

Specifications

Motors	60-90psi
Horsepower	.33hp
Weight	3 lbs. (1.36kg)
Battery Charger	No
Blades	Standard: Semi-Square Optional: Circular, Octagon
Sharpener Stones	No
Options	Optional: Pressure Foot, Ball Tip, Pelican, 30 Degree Point, Swivel Sharpener, Shear Foot
Blade Size	2.03in. (5.16cm)
Cutting Capacity	0.38in. (.96cm)
