

Specifications

Motors	110v, 1ph, 50/60Hz 220v, 1ph or 3ph, 50/60Hz
Horsepower	0.34hp, 1ph 0.48hp, 3ph
Weight	30lbs. (7.26kg)
Weight w/strip gauge	No
Blades	Standard: Grooved Blade Optional: Carbon Steel, High Speed Steel, PTFE Coated
Sharpener Stones	No
Standard Features	No
Options	Knife Lubricator, Long Handle, Stationary Base Plate
Blade Size	5 in. (12.7cm)
Cutting Capacity	1 in. (2.54cm)
Disclaimer: Achievable speeds and accelerations are tool-, material- and thickness dependent. All indicated speeds, dimensions, weights and performance data are approximate and subject to change without notice.	

The Cardinal Carpet Cutter is designed to cut cleanly through most pile types and backings. The 548CC allows for cutting along and against the grain in curves, or along straight edges with minimal effort thus reducing operator fatigue.

The blade is grooved to reduce heat and allow the blade to shed carpet backing. The blades can also be coated for maximum heat reduction and the ability to eliminate build up of cut material.

All Eastman cutting machines are built with the highest grade materials available.

Features

Heavy-duty Cutting Without Fusing

Heat reduction cutting with a narrow profile, grooved blade and an optional Teflon-coated blade

Ability to reduce speed to eliminate fusing, provided by the dual speed option

Accuracy

Eliminates cutting distortion due to the narrow silhouette standard - an extremely low base plate

Stability

Vibration-free cutting with smooth and easy maneuverability

Reduced operator fatigue provided by the optional long handle that allows the operator to cut in a standing position

Efficiency

Reduced operator fatigue with the option of a long handle, where cutting can be done while seated

Simple handling of the machine due to its low center of gravity

Single-hand engaging of power supply via the Patented Uni-Safe Terminal Block and Attachment Plug
