

# Eastman®

# CHICKADEE

## Model: D2

### Lightweight Powerful Shearing

The Chickadee™ is the smallest rotary shear available and is the perfect upgrade to, or replacement for, hand held shears.

Powered by Eastman's Perma-Field motor, the Chickadee™ has 40% more power than any other hand held knife its size.

Cutting capacity is 25% greater than competitive models.

Its streamlined, lightweight construction helps eliminate operator fatigue.

## Features

2-1/4" round blade for general use or hexagon blade for shear or difficult to cut cloth.

Built-in sharpener.

Ergonomically designed with grip-actuated on/off switch.

Three different base plates and cutting tips can be selected for improving operations with different materials.

•Stabilizer Shoe: the "standard" foot attachment, a utility feature that lends itself well to all cutting and slitting operations.

•Ball Tip: best when slitting tubular knits or other loosely woven materials.

•Baseplate: a small baseplate fitted with needle rollers to create a lightweight, freestanding rotary shear.

## Specifications

Motors	110V, 1ph, 50/60Hz 220V, 1ph, 50/60Hz
Horsepower	.10hp
Weight	1lb. 14 oz (.85kg)
Battery Charger	No
Blades	Standard: Circular Optional: Hexagon
Sharpener Stones	No
Options	Standard: Pressure Foot Optional: Ball Tip, Swivel Sharpener
Blade Size	2.25 in. (5.72cm)
Cutting Capacity	0.5in. (1.27cm)
