

Cold Drill Marking

The Eastman Cloth drill marker can drill holes through numerous layers of fabric, indicating button holes, darts, pockets, and other attachment points.

This is perfect for use on loosely knit, bulky, or quilted spreads, where a mark is needed, but where a burn mark would be unnecessary.

Features

Telescoping drive shaft and powerful AC motor for dependability and long service.

Drill is available in three sizes, numerous hole diameters, and drill types

The large square baseplate decreases distortion, even on bulky or quilted spreads of material

Decreased distortion, even on bulky and quilted spreads, provided by the large square baseplate.
